

Our family is very much opposed to a change the current Wisconsin Do Not Call law. We do not want it changed to the Federal Do Not Call law. We feel the telemarketing calls are a violation of our privacy rights, not to mention our right to enjoy a quiet evening with the family. Removing and/or changing the Wisconsin Do Not Call law will only cause our rights to be tossed by the wayside. Not everything needs to be regulated by the Federal Government. Please allow each State to have their own law!
